Learn about the potential hazards in your area, how to maintain your personal safety, and how you can contribute to community safety. Communities, families, and individuals should know what to do before, during, and after a disaster. People also can reduce the impact of disasters by practicing preparedness.

Presented by the Southern Nevada CERT 3V program, an organized team of community volunteers trained in disaster response and preparedness to strengthen community resilience. The United Way of Southern Nevada contributes to our efforts by supplying emergency kits and snacks for this venue.
